## Financial Performance

The Company posted a gross profit of Rs. 3,759 million for the period under review (July 2021 - March 2022) as compared to Rs. 4,397 million for the corresponding period of last year. Erratic Raw material and fuel prices continued to exert pressure on profits, though their impact was partially offset through Incremental sales volume and necessary selling price adjustments.

The net operating profit for the period under review (July 2021 - March 2022) was recorded at Rs. 2,981 million as compared to Rs. 3,679 million for the corresponding period of last year.

Finance cost for the period under review (July 2021 - March 2022) increased to Rs. 438 million as compared to Rs. 325 million for the corresponding period of last year on the backdrop of successive policy rate hikes and increased working capital requirement for the period.

After taking into account financial charges, profit before tax for the period was Rs. 2,543 million as compared to Rs. 3,354 million in the corresponding period of last year.

Accordingly, net profit for the period under review was Rs. 1,795 million as compared to Rs. 2,381 million for the corresponding period of last year.

## Earnings per Share

The basic earnings per share is reported at Rs. 8.85 as compared to Rs. 11.74 for the corresponding period of last year.

During the period, share capital stood increased to $202,885,316$ shares after issuance of $26,463,302$ bonus shares being the $15 \%$ bonus issue declared by the Board of Directors for the year ended June 30, 2021. Thus the weighted average number of shares for the current and corresponding periods include the impact of bonus shares for calculation of EPS as per requirement of International Financial Reporting Standards.

## Directors" Review

There is no dilution effect on the earnings per share for the period under review and corresponding period of last year.

## Balancing, Modernization \& Replacement (BMR) and Digitization

Your Company has availed SBP's Temporary Economic Refinance (TERF) loan facility from different banks for up-gradation of Paper \& Board Machines, Cogeneration Plants and auxiliaries relating thereto. As on the balance sheet date, the Company has utilized the major chunk of the financing by retiring letters of credit established under the facility. Moreover, your Company has collaborated with foreign consultants to use their artificial intelligence tools for quicker and precise analysis of data in order to improve machine operations to yield better productivity.

## Corporate Social Responsibility (CSR)

The Company's different CSR initiatives for education and welfare of surrounding communities continued during the period. Your Company is also providing assistance to the less privileged people in the mills' vicinity in the shape of food packages and personal care products besides extending support to health care and schooling facilities in the area in coordination with local administration.

## Near Term Outlook

The prevailing scenario of erratic raw material and fuel prices, intermittent global logistic issues, fluctuating PKR-\$ parity, rising indigenous inflations and higher interest rate is likely to persist in the ensuing quarter. Amid strong market demand, a well-placed business strategy is being pursued to serve our customers to the best possible extent by product mix adjustments and possible selling price adjustments as per market conditions. Management is hopeful that higher sales volumes and cost minimization through operational efficiencies will enable the Company to mitigate the negative impact of the above stated challenges and to close the financial year with positive financial results.

## Acknowledgments

The Directors wish to acknowledge the devotion of the employees of all cadres and are appreciative of their dedication and commitment. They also extend heartfelt appreciation to the Company's suppliers, customers and bankers for their continued confidence and support.
