## Near Term Outlook

Market demand for your Company's products is stable. Moreover raw material and fuel items prices are showing some respite after touching the peak in previous quarters of the current year. Government is considering to grant certain waivers to the Industry for out of court settlement of GIDC. We expect that Government will give due credit adjustment for GIDC already paid by the Company.

On behalf of the Board of Directors

The adoption of IFRS 9 has changed the accounting for impairment losses for financial assets by replacing the incurred loss model approach with a forward looking expected credit loss (ECL) approach. Expected credit loss is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive.

The Company has applied the standard simplified approach and has calculate ECL based on life time ECL and conducted an exercise to assess the impairment of its financial assets using historical data and forward looking information. Based on such exercise, the Company has concluded that the impact of impairment on its financial assets (if any) is not material to this condensed interim financial information.

### 5.2 IFRS 15: Revenue from Contracts with Customers

IFRS 15 'Revenue from Contracts with Customers' is effective for accounting period beginning on or after July 01, 2018. This standard has replaced IAS 18 Revenue and related interpretations and it applies to all revenue arising from contracts with customers.

The IFRS 15 establish a five-step mode to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard requires the entities to exercise judgment, taking in to consideration all of the relevant facts and circumstances when applying each step of the model to contracts with the customers. Hence, the Company has concluded that the impact of adoption of revenue recognition model as laid down in IFRS 15 is not material to this condensed interim financial information.
