Redemption of Preference Shares

During the period, as approved by the Board of Directors, Company has fully redeemed outstanding preference share of Rs. 901.21 million along with proportionate dividend thereon upto the date of redemption as per terms, conditions, rights and privileges of preference shares. The terms, conditions, rights and privileges of preference shares were earlier approved by the SECP.

Near Term Outlook

Your Company is expected to maintain its market share in the wake of market trust on its products. Escalation in raw material & fuel item prices and other costs are expected to exert pressure on margins going forward as in the first half of the year, the Company could only pass on some of the cost increases through prices adjustments. Interest costs will also go up as a result of graduated increases in policy rates by the State Bank of Pakistan and increasing requirement for our working capital. Despite the above factors, management of your Company will continue its focus on volume maximization, cost minimization and Price adjustments as per prevailing market conditions.

Acknowledgments

Your Directors appreciate the continued support and commitment of all the stakeholders. They are especially thankful to the Banks and financial institutions. They also wish to acknowledge, hard and sincere work of the staff and employees of the Company.

On behalf of the Board of Directors

Independent Auditor's Report on Review of

Condensed Interim Financial Information to the Members

Introduction

We have reviewed the accompanying condensed interim statement of financial position of **CENTURY PAPER &BOARD MILLS LIMITED** ("the Company") as at December 31, 2018 and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim statement of cash flows, condensed interim statement of changes in equity and notes to the condensed interim financial information for the six-month period then ended (here-in-after referred as the "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information as at and for the six months period ended December 31, 2018 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.

The figures for the quarters ended December 31, 2018 and December 31, 2017 in the condensed interim profit and loss account and condensed interim statement of comprehensive income have not been reviewed and we do not express a conclusion on them.

IFRS 9 'Financial Instruments' has replaced IAS 39 - Financial Instruments: Recognition and Measurement - for annual periods beginning on or after July 01, 2018, bringing together all three aspects of the accounting for financial instruments:

- Classification and measurement
- Impairment

The adoption of IFRS 9 has changed the accounting for impairment losses for financial assets by replacing the incurred loss model approach with a forward looking expected credit loss (ECL) approach. Expected credit loss is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive.

The Company has applied the standard simplified approach and has calculate ECL based on life time ECL and conducted an exercise to assess the impairment of its financial assets using historical data and forward looking information. The standard requires the entities to exercise judgment, taking in to consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. Hence, the Company has concluded that the impact of adoption of revenue recognition model as laid down in IFRS 15 is not material to this condensed interim financial information.
